

Microsoft OneNote

Duration: ½ day

Course Aims

This course focuses on enabling OneNote users to be able to create a structured notebook - allowing people to take and share notes electronically from content from varied sources. Attendees will gain a solid working appreciation of why OneNote is ideal for taking meeting notes, record research and to keep to-do items and lists.

Course Content

- Create a notebook with different group sections, sections, pages and sub pages
- Insert typed and handwritten text onto a page
- Format text
- Work with pictures, tables, calculations, drawing tools
- Use tags and find tags
